

User manual

USB to Lightning cable Foneng X85 iPhone 3A Quick Charge, 1m

Description

The Foneng X85 will allow you to renew your device's power in no time thanks to its 3A intensity. Furthermore, the use of high-grade copper translates into stable charging. In addition to this, the cable has been created with durable materials to ensure resistance to wear and tear. It offers USB and Lightning connectors and is 1 m long.

Intended use

For safety and certification reasons, the device must not be converted or altered in any way. If the product is used for purposes other than those described, the product may be damaged. In addition, improper use may cause hazards. Carefully read the operating instructions and keep them for future reference. Read and observe the safety instructions in the manual.

1. The product is not a toy. Keep it out of the reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product before reuse.
5. handle the product with care. Shock, impact or dropping the product may damage it.
6. If you have any doubts about handling, safety, please consult a qualified professional.
7. if you have any questions that are not answered in this manual, please contact our customer service department (e-mail: hurt@innpro.pl, website: <https://innpro.pl/>) or with another specialist.

Environmental protection

Electronic waste labelled in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to separate collection and recycling at designated points. By ensuring that it is disposed of correctly, you will prevent potential negative consequences for the environment and human health. The collection system for used equipment complies with local environmental regulations for waste disposal. Detailed information on this subject can be obtained from the municipal authority, treatment plant or shop where the product was purchased. The product complies with the requirements of the so-called New Approach directives of the European Union (EU) on safety, health and environmental issues, which specify hazards that should be detected and eliminated.
